A Ray of Hope for Little Mallikarjun

Patient Story | HCG Foundation

Three-year-old Mallikarjun Kariyappa Pujari from Siddapur village in Bagalkot district was recently diagnosed with B-cell Acute Lymphoblastic Leukemia—a life-threatening form of blood cancer. The news was devastating for his family, especially his father, a small-scale farmer struggling to make ends meet.

With no steady income, the cost of treatment felt insurmountable. In their darkest hour, HCG Foundation, supported by compassionate donors, stepped in to provide Mallikarjun with access to essential chemotherapy. Today, he is responding positively to treatment, displaying remarkable courage and resilience.

Mallikarjun's journey reminds us of the power of collective kindness. At HCG Foundation, we remain committed to bringing hope to families facing cancer—because every child deserves a fighting chance at life.

HPV Vaccination Drive ,2nd Dose-23rd June

With the generous CSR support of **NES Fircroft**, HCG Foundation successfully facilitated HPV vaccinations for 100 government school girls aged 9 to 15 in rural villages of Gulbarga, Karnataka. This vital initiative aims to safeguard young girls from cervical cancer by promoting early prevention through vaccination. Alongside the immunization drive, awareness sessions were conducted for parents and teachers, fostering informed decision-making and encouraging community involvement. Together, we are building a healthier future—one girl at a time.

World Art Day Celebration at HCG Foundation-15th April

HCG Foundation marked World Art Day with a vibrant celebration that brought together creativity, expression, and team spirit. The event featured live art workshop where a fun, hands-on activity where the team can express their artistic side and collaborate with colleagues. Through this celebration, the Foundation reaffirmed its commitment to promoting art as a powerful tool for healing, awareness, and social change.

Empowering Girls through Preventive Healthcare

With the valued CSR support of **NES Fircroft**, **HCG Foundation** successfully administered HPV vaccines to 50 Mullur school girls aged 9 to 15 in the rural areas of **Mysore, Karnataka**. **This important initiative is aimed at preventing cervical cancer** by ensuring early vaccination. To enhance community understanding and support, the program also included informative sessions for parents and teachers, promoting awareness and encouraging proactive health decisions. Together, we're paving the way for a healthier tomorrow—protecting lives through prevention.
